

It's a frantic day...

You're overworked and tired...

Then it happens: **a single accidental stick** can cause you countless days, weeks, and months of worry. Along with the risk of accidental HIV or hepatitis infection, a single needle stick can rack up more than \$3000 in testing costs and lost time.

NeedleZap offers a cost effective solution to creating a safer work environment. Easy to use with no special training, the NeedleZap unit can even be operated with one hand. Simply insert the needle into the receptacle, and NeedleZap unit "zaps" away the needle with temperatures of over 2200°F.

The NeedleZap unit is **FDA Approved (#P010065)** and compliant with the **OSHA Bloodborne Pathogens Standard** (EN 60601-1, EN 60601-1-2, EN 1441, EN 61010-1).

Best of all, priced at just \$199.99 for the base-unit or \$229.99 for the unit w/Travel Kit, the NeedleZap is affordable. Lower your risk of accidental needle sticks.

Can you afford not to?

NeedleZap

The logo for NeedleZap features the word "Needle" in a bold, black, sans-serif font. The letter "e" is replaced by a syringe needle pointing upwards. To the right of the needle, the word "Zap" is written in a large, red, cursive script font.
